call 351-4648.

African Studies Center at Michigan State University

The MSU subscription to the AFRICA NEWS service, which is based upon the monitoring of African government radio stations, is jointly supported by the Library, the College of Urban Development, the STATE NEWS, WKAR-Radio, and the African Studies Center. News items are relayed through an audio feed service four times per week and through a print service once per week. This version of

AFRICA NEWS is abridged from the print service by Bill All (3-1700) and prepared for on-campus distribution (federal mails permitting) every Wednesday. The Library maintains a supporting index service for research purposes as well as unabridged copies of the print service. (See the Africana Bibliographer for assistance.)
