Just this evening another Brother introduced me to your SOUTHERN AFRICA publication. For me it was more than a magazine to pass the time with. Believe me I learned alot of what I know nothing about

Black Prisoner

I believe that it is an important and consistent source of accurate news on Southern Africa, and provides a valuable tool for building support for our struggle.

As a librarian, I try to publicize your magazine . . . You are doing an excellent job in publishing news from a broad range of documented sources . . .

Librarian, large southern university

Your publication is one of the leading sources of information in this area . . .

Africa Information Service

Please let me compliment you for your publication. SOUTHERN AFRICA provides excellent commentary on the liberation groups . . .

Local activist in Mid-West

It has been valuable to me and to my colleagues in the United Nations Special Committee on Apartheid . . . Your activities are particularly significant in view of the dearth of information in the daily press and the well-financed propaganda conducted by the colonial and racist regimes and their collaborators to deceive public opinion.

Chairman, UN Special
Committee on Apartheid*
