

DAVIDSON OUT OF SOUTH AFRICA

TEACH-IN

SATURDAY, OCTOBER 8 11 a.m. to 1 p.m. on VAIL COMMONS,
DAVIDSON COLLEGE, DAVIDSON, NORTH CAROLINA

HOMECOMING DAY, OCTOBER 8

"This is a life and death issue and we call on all our brothers and sisters internationally to support us morally and work towards a total isolation of South Africa economically, culturally, and politically."

Rev. Frank Chikane, Secretary
S. A. Council of Churches

"I think it is high time for Davidson College to reconsider divestment as a way of making a Christian witness to the Christian foundations of the college of which all of us are justly proud."

Dr. Donald W. Shriver, Jr.
President, Union Theological Seminary
DC '51 DHL '84

"I am ashamed and angry that the trustees of my alma mater, Davidson College, refuse to heed the cry of black South Africans. Christian leaders, such as Bishop Desmond Tutu and Dr. Allan Boesak of South Africa have called for divestment as a means to help end the racist oppression of their government. We must stand in solidarity with black brothers and sisters as they struggle for freedom and justice."

Dr. Sam R. Hope DC '53
Director of Church Relations
Witness for Peace

...and whereas the renouncing of the Sullivan Principles by their author makes questionable their continued application; and whereas the situation in South Africa remains as repressive and repugnant as ever, therefore the faculty requests: that the Board of Trustees adopt a policy of complete divestment...."

Davidson College Faculty Resolution
February 2, 1988 57-15 vote

TRUSTEE POSITION: "The Board of Trustees....in no way intends its position with regards to investments to justify or lend support to the reprehensible policies of the South African Government....

The Trustees are unconvinced that actions designed to end American investments in South Africa would achieve the end of apartheid or other results that are widely viewed as desirable."
