

SPEAKING OF APARTHEID

A CALL TO ACTION

Rosa Parks of Detroit who was a catalyst for the Civil Rights movement.

FREE NELSON MANDELA

People of San Francisco are invited to join in a discussion on the continuing crisis of the Black Majority in South Africa. With the passage of Prop.J. and the Longshore boycott of South African goods, our community has already shown it's support. We have taken the first steps, let us together stop all trade with apartheid.

Inspired by the growing movement to end U.S. ties to racist South African apartheid, a group of concerned San Franciscans asks you to help us plan further actions.
