To Whom It May Concern,

The Auraria Coalition Against Apartheid is a newly formed organization on the Auraria Campus in Denver, Colorado. Our Education Committee is responsible for collecting information concerning South Africa, the Apartheid Regime, the struggles of the people in South Africa and its neighboring countries, and other issues of importance to the end of the apartheid regime.

We are asking that your organization forward any information that is of an educational nature to our Education Committee for dissemination to the general public and that would help our organization's members to become more aware of the issues. We are, also, asking that you please forward any film, lecturer, or literature list that you may have.

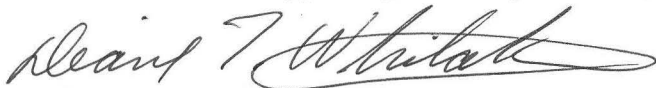

We are planning several activities for this semester and the coming year. Some of these activities include a film series, a lecture series, workshops and various other activities. Any information that you could send us would be greatly appreciated.

We would like any information that would help us in developing a library of materials to check out to our members and interested parties. If some of the materials are associated with a cost please let our committee know and we will arrange to order them.

It is the purpose of the Coalition to form a strong base on the Auraria Campus and address the issues that concern South Africa and the apartheid regime. We would like to make our main focus education through literature and awareness. At this time we wish to focus on as much as we can with one of our focal points being divestment of the Auraria Campus institutions.

We thank you for your assistance in helping us to be informed and knowledgeable about the existing conditions in South Africa and in helping us to inform the people and the community.

Yours in the Struggle Against Apartheid,

Diane T. Whitaker, Chairperson
Education Committee
Auraria Coalition Against Apartheid
