TransAfrica Forum's
Seventh Annual Conference

Serious discussion is clearly needed on the shape of U.S. relations with Africa and the Caribbean.

Consider the following issues:

- American Aid: What Impact on African Development?
- Human Rights Violations in the Third World: Causes and Consequences.
- Third World Debt and Trade Problems: Dangers to the U.S. and International Economy.
- Ending Apartheid: Global Embargo or Business as Usual?

Come join activists, policy-makers, experts and scholars as TransAfrica Forum discusses these questions in a critical and timely foreign policy debate.

You are cordially invited to attend
