Dr. Jean Sindab, Executive Director of the Washington Office on Africa will give a detailed briefing for working group members on the arguments for corporate disinvestment from South Africa and the campaign for divestment, complete with facts and figures. SAWG members had asked for this briefing to better equip them for the debate on South Africa.

The battle is heating up in Congress on the proposed sanctions legislation. We need to mobilize the maximum numbers of people now if we are going to win this fight.
